EXPERIENCE

Web Developer

2017 - 2022

Quality Bicycle Products, Bloomington, MN

- Recode QBP's bicycle brand websites for accessibility and usability, earning full ADA compliance
- Update brand websites using full-stack toolset: ReactJS, AJAX, CMSs, PHP, JavaScript, jQuery, NPM, SQL, and CSS
- Build custom web applications including bike finders, Google Maps-driven tools, and admins
- Perform system admin duties such as webhosting and software upgrades, database maintenance, site backups, and troubleshooting
- Complete site performance and SEO optimizations using Google PageSpeed Insights, Chrome Lighthouse, and Screaming Frog
- Mentor junior-level developers and review code
- Write developer documentation and QA testing instructions

Web Developer/Systems Analyst

2014 - 2017

Allina Health, Minneapolis, MN

- Supported allinahealth.org using .NET, C#, CSS, jQuery, JSON, and Google APIs
- Built templates, widgets, and interfaces for Allina's .NET-based websites (MVC and Web Forms)

Contract Front End Web Developer

2014

Intuitive Technologies at FICO, Roseville, MN

- Rewrite CSS for fico.com, fixing responsive design

Web Developer

2010 - 2013

Ecreativeworks, Plymouth, MN

- Developed shopping carts, CMSs, blogs, and mobile sites using PHP, CSS, SQL, HTML and jQuery
- Wrote mobile-specific stylesheets. Optimized graphics and layouts for small screens
- QA'd and launched sites. Developed and populated databases
- Created animations using jQuery and Flash
- Skinned sites and sliced and optimized graphics using Fireworks and Photoshop
- Performed daily website updates and cross-browser testing. Wrote documentation

EDUCATION

Completed coursework for degree, Computer Information Systems, Metropolitan State University

MS, Technical Communication, University of Minnesota

BA, University of Delaware
